

About Me

I'm the swiss army knife of full-stack web development, with more than ten years of experience and specialized knowledge in the field of Computer Science.

I love adventure, challenges, computer graphics, and have great interpersonal skills.

- Amazon AWS
- DigitalOcean
- Ubuntu Server
- CentOS/Redhat
- Arduino
- Raspberry Pi
- Leap Motion

Added Bonus: I'm fairly proficient at PhotoShop, Illustrator, and AfterEffects

EXPERIENCE

AgilityFeat (August 2013 - Current)

Innovation Wizard and Dev. Commanding Officer (Remote)

In charge of implementing innovative SOA solutions using top-of-the-line Open Source libraries, tools, and packages.

- Researched and implemented a walking skeleton of a Ruby on Rails application using Hadoop (HBase) as a data layer.
- Sponsored as guest speaker in Web Congress Panama 2014 to talk about my research on BigData in general.
- Developed real-time notifications system based on PubNub.
- Managed small team of remote developers and successfully built a walking skeleton of a multi-service application consisting of several isolated modules working seamlessly together.

Animated Games AB (June 2014 - October 2014)

Front-end Firefighter (Remote)

- Developed and integrated AngularJS views in a fast-paced environment of constant updates and innovation.
- Created a CMS architecture based on Wordpress and AngularJS.

Bosz Digital (2012 - 2013)

Senior Creative Engineer (On-Site)

- Was an integral part of a team in charge of building an award-winning (Webby) website for Bank of America.
- Key speaker at Digital Zoomit 2013.

PerHead Ltd. (2010 - 2012)

Head of Web Production Department (On-Site)

- Hired and trained a team consisting of ten professionals and implemented solutions which were crucial in provoking a shift in the company's business model, from having an 83% Telephone Service Offering income to having a 90% Internet Solutions based income.
