About Me

I'm the swiss army knife of full-stack web development and multimedia production.

I have 14 years of experience and specialized knowledge in the field of Computer Science.

Experience

Senior React.js Tech Lead

18Techs / Remote / July 2017 - Present

Research, architect and develop a full-stack cross-platform POS solution for Desktop, Web, and Mobile (iOS) which involves using Electron, React.js, and React Native.

Set coding standards, style-guides, and document development processes for easy induction of talent into team.

Senior Software Engineer & Tech Evangelist

Gorilla Logic / On-site & Remote / May 2016 - June 2017

Architected, developed and deployed Ruby / Sinatra / ExpressJS / Angular2 micro-service apps for production usage in the aerospace industry.

Evaluated and interviewed collaborator prospects.

Incentivized knowledge sharing through conference speaking and community engagement.

Fullstack Software Engineer

Toptal / Remote / October 2015 - Present

Develop full-stack React.js solutions for varied freelance projects.

Innovation Wizard and Dev. Commanding Officer

AgilityFeat / Remote / August 2013 - October 2015

Researched and implemented a walking skeleton of a Ruby on Rails application using Hadoop (HBase) as a data layer.

Managed small team of remote developers in varied nations and successfully built a walking skeleton of a multi-service application consisting of several isolated modules working seamlessly together.

Senior Creative Engineer

Bosz Digital / On-site / November 2012 - June 2013

Was an integral part of a team in charge of building an award-winning (Webby) website for Bank of America.

Key speaker at Digital Zoomit 2013.

Skills

Javascript	MariaDB
ES6 / ES7	PostgreSQL
Node.js	MongoDB
React.js	Couch/PouchDB
Angular 4+	Amazon AWS
CSS3 & CSS4	Google Cloud
Material UI	Electron

Speaker At

StreamConf 2016
San Francisco, CA - U.S.A.

Fullstack Day 2016
San José - Costa Rica

Web Congress 2014
Panama City - Panama
